Clear Grit Stupidity.

The Montreal Gazette says: "The latest

bit of Clear Grit stupidity is an article

in the Hamilton Times which, since the

death of poor Tyrer, is like a ship without

a rudder, upon Ministers for having gone

to Halifax to meet His Excellency the Governor

General. Here is a specimen of the

manner of this latest blunder.

"We well remember having heard Conserva-

tives boast that Lord Dufferin was taken by

storm when he first met Macdonald, who, by

the way, was not a Conservative, but a Liberal

and was, in fact, a member of the House of

Commons. We are told that Lord Dufferin

was so much taken by storm that he was

obliged to leave the room in a hurry, and

that he was so much taken by storm that

he was obliged to leave the room in a hurry,

Arrival of the Vice-Regal Party in Ottawa.

ENTHUSIASTIC RECEPTION.

OTTAWA, Dec. 2.

Although a drizzling rain continued from early morning until the arrival of the Vice-Regal train, it did not dampen in the slightest degree the enthusiasm aroused in the city of the arrival of the Ottawa. Valley.

The city was full of strangers, who flocked in from every part of the valley and with citizens of all classes, irrespective of nationality, joined in one grand outburst of enthusiasm, a fitting culmination to the series of princely greetings which have marked the progress of the Vice-Regal train.

The welcome was broad, hearty and generous, and demonstrated in an unmistakable manner the loyalty of the Eastern people. The Mayor had proclaimed a half-holiday and invited the citizens to decorate their places of business, &c., &c. There was a hearty response. Wellington, Sparks, Rideau, and some other streets are profusely decorated with evergreens, mottoes, bunting, and a variety of adornments, which present a scene of transcendent beauty.

There are seven arches, one of them costing as much as \$1,000. All are monuments of artistic taste and grandeur. The Civil Service is thought by some to be the best building, but the group of five arches opposite the entrance to Rideau Hall has perhaps the majority of admirers; both do credit to their designers, and are worthy of the occasion.

num price of the issue is 90¢ per cent.
The guaranteed portion of the loan is
in bonds to the bearer; the Dominion four
per cent may be had, either in bonds or
registered stock. The loan is redeemable
in 1913. The Dominion portion of the loan
is to be provided with a sinking fund of not
less than 4 per cent per annum. The
bonds are to be issued in January next
will be taken in lieu of cash in exchange for
new bonds. A little more than half of the
loan will be employed in redeeming the pre-
existing bonds, the remainder will be devoted to
the construction of public works of the Do-
minion. The *Chronicle*, the *Daily News*,
the *Standard*, and the *Daily Telegraph*
registered the announcement of the loan with
comments. The *Times* in its editorial
says that owing to the redemption of six
per cent and the saving in interest charges
estimated thereby, the annual increase made
by the loan in the burdens of the Dominion
is calculated to be but £27,000.

THE MARQUIS AND PRINCESS.

AT OTTAWA.

PRESENTATION OF ADDRESSES.

The presentation of addresses to His Ex-
cellency took place in the Senate Chamber
on Tuesday afternoon, where the following
addresses were presented: The Marquis, St. Jean
Baptiste and St. Patrick's Societies of
Ottawa, the Societies of the Hamilton
Corporation, the Hamilton Board of Trade,
the Societies of the Hamilton Corporation,
and others, etc., was presented. His Ex-
cellency arrived at the Senate Chamber sharp
at five o'clock, being accompanied by his
staff. The Princess was not present. The
Dragoon Guards formed an escort from
Rideau Hall. A tremendous crowd gathered,
and cheered heartily as His Excellency
passed.

On the door of the Chamber were seated
the different delegations, while the galleries
above were filled to overflowing. On the
left to comply with your wishes, and if
I could I shall work for the best interests
of the City and of the Province in particular.
I am, gentlemen,
Your obedient servant,

as it was possible to make them. The Civil
Service was the greatest sight of all.
The scores of dress, in uniforms, flags, mottoes
and shields, above out with inscriptions

The Montreal Telegraph office, the *Citizen*
and the *Star*, dry goods stores and in fact
all the stores on Sparks, Wellington, Rideau
and streets, were in the extreme.
The *Citizen* got illustrations in many prominent
buildings displayed, besides the splendid gas
at designs, the outlines of grand architecture
and elegant sculpture. Some of the private
residences were beautifully decorated with
flags, and Mr. Arty's on Day Street,
when illuminated with green and an elegant
by the residence stood side by side, con-
strating Canada as it was with what it is.
The contents were also decorated and illus-
trated.

The torchlight procession was a grand af-
fair, and must have witnessed by half
twenty thousand people, the streets on the
night being densely packed. It looked as
though the whole city was out. His Ex-
cellency and the Princess were with the pro-
cession, opposite the French Cathedral, and
escorted through the principal streets.
The procession was escorted by a large
company of their Excellencies' quip driving out
the procession and down Sparks, next to
Rideau Hall without notifying the Committee,
who followed the published route.
Their Excellencies were lustily cheered at
every street corner, where immense crowds
had gathered.
Their Excellencies then entered the
members of the English press at lunch.

MANAGER in MACROBIA.—A cable
telegram says:—"The British consul at
Sofia confirms the report that the Turkish
militia numbered 350 Bulgarian of
Chonistia, and that the Cretanians burned
the village of Bala. The district of
Bresna. Insurgent Bulgarian bands are
being formed all through Macedonia, and
the Bulgarian government are disorganizing
the Post Lagos district and murdering and
robbing indiscriminately. Turkish troops
have been sent to the scene."

WONDERFUL DISCOVERY

EMPRESS RELIEF

THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY.

BALM FOR EVERY WOUND.

Heals Rheumatism and Neuralgia, and kills all pain instantly. "It is my only remedy for Rheumatism."—An American Contention paid by thousands. "As soon as applied it gives instant relief to the unfortunate sufferer."—It is equally effective for the cure of the following: Toothache, Earache, Headache, Neuralgia, Rheumatism, Sprains, Swellings, Inflammation, Cuts, Bruises, or Young Pains in Side, Pain in Back, Pain in Feet, Pain in Throat, Coughs, Colds, Frontitis, Chills, Diarrhoea, Dysentery, Scalds, and Complaints, etc., etc.

"It will cure the most agonizing Pain internal or external, in one instant of time. It cures every kind of Pain, and is a trial of the greatest of small and great cures."

The great secret of the success with this medicine is owing to the fact it is safe and harmless. Pleasant to take, gives instant relief, and can be applied to a wide range of diseases in every day life, with greater success than any preparation which requires skill, and "Medical Science" has yet produced.

As a proof of its great power over disease, any person, no matter who it may be, Rich or Poor, Old or Young, Pain in Side, Headache, or any other kind of Pain, is sufficient to prove its value. It is a powerful remedy for all the above painful complaints, will call at the residence in Toronto, any day of the week, and give a full and complete proof. "Free of Charge" of its magical power over pain in any application.

Continued from all parts of the Dominion, are constantly coming to hand, giving expression to the most grateful thanks for astonishing cures which it has performed, and we would be pleased to receive testimonials from all persons who are cured.

Physicians of the highest respectability recommend it as a most effective "Domestic Remedy" for the relief of Pain in cases of sudden emergency.

It carries it to your home, and it will prove itself a most valuable remedy in all cases of sudden emergency.

POROUS PLASTER.

IS THE BEST KIND.

This remarkable article contains all the valuable qualities of the slow acting common porous plaster, and in addition an entirely new combination of active vegetable ingredients from which it derives its wonderful power of relieving, strengthening, and curative properties. It relieves pain without even relief. The manufacturers of Benson's Porous Plaster have awarded the highest and only medal of merit given for plaster of the Continent, 1876. Your physician will confirm our statement regarding its value.

For Lung and Weak Back, Kidney Disease, Rheumatism, Stomach and Intestinal Disorders, Lung and Chest Difficulties, The Lameness and Weakness peculiar to Women, Nervous Affections of the Heart, Chills and Fever, Scalds and Lumbago, Diseases of Children, such as Whooping Cough, Croup, and when applied to the face, it cures all Local Aches and Pains of Young or Old.

IT IS THE BEST REMEDY EVER USED OR KNOWN.

There is no other remedy so well adapted for the above class of cases, as this plaster, which is a combination of medicinal ingredients. Benson's Porous Plaster is superior to all other plaster, and is the only plaster that has been awarded the highest and only medal of merit given for plaster of the Continent, 1876. Your physician will confirm our statement regarding its value.

Daily Intelligencer.

BELLEVILLE, MONDAY, DEC. 9.

City and Vicinity.

CITY COUNCIL.—Meeting to-night at the usual hour.

THE CELLS.—There were two prisoners in the cells on Saturday night and last night.

CHROMING THE BAY.—Several persons crossed the bay yesterday on foot. The ice was quite thick and seemingly almost strong enough to bear a horse.

BAD ROADS.—The Mill Point Echo says:—"Mr. Tobias Butler, Mr. Rathbun's shanty boss, reports the bad woods flood, and the roads almost impassable."

THE STRIKING MISSION.—The Kingston News says:—"The Rev. C. G. Gadsden, R. A. Northrup, has been appointed to the mission of Stirling."

TO BE LEADER.—Six box cars, which passed down the Pinnacle Street line this morning, are to be loaded with peas for Montreal from the different elevators here.

ELECTION EXPENSES.—The Hon. Lewis Wallace's election expenses in the Stirling election contest in West Hastings amounted to \$137.23, including the \$50 deposit with the Returning Officer.

SNOW STORM.—Since early morning snow has fallen steadily, and the ground at the time of writing is covered to a depth of two inches. The temperature has risen considerably and rain seems probable.

DECEASED.—The wall in front of the Shire Hall has become uncovered from the removal of the pump, leaving a dangerous opening for the many school children that frequent that neighborhood.

RAILWAY GUIDE.—Messrs. Chisholm Railway and Steam Navigation Company for December has been received. It is full of information of interest and value to every traveler.

TOTAL ABSTINENCE.—The Rev. Mr. Stafford, of Lindsay will deliver his lecture on the above subject in the Metropolitan Hall this evening, under the auspices of the Workingmen's Temperance Association. Admission 10c.

COUNTERFEITS.—A Toronto report says:—"Counterfeit ten dollar Ontario Bank bills are in circulation. The bad bills are a trifle smaller than the genuine, and have a grossy feeling."

GOAT A DUCKING.—One of the skaters who were on the bay yesterday broke through the ice, and was rescued, but got a good ducking.

SLEIGHING.—Several light sleighs and cutters were to be seen on the streets this afternoon, their owners taking their first sleigh ride for the season. The "going" for the roads being hard and smooth beneath the snow.

ADVERTISEMENTS FOR THE ALMANAC.—Those who have contracted for advertisements in the INTELLIGENCER FAMILY ALMANAC, are requested to send them in at once to the office.

L. O. L. No. 99.—The Mohawk L. O. L. No. 99, met at their lodge room, Mohawk Reserve, on December 4th, and elected the following officers for the ensuing year: J. B. Brant, W. M.; Isaac Penn, D. M.; Elise Green, Sec'y.; A. L. Green, Treas.; Seth W. Hill, Chap.; George Marill, D. C.; Committee—A. H. Marill, W. Marill, Charles John, Michael Brant, Iseral Ross.

CLAIMING FOR THE FANCY DOLL.—Grip has in his last cartoon a good hit at the situation. The reform party is depicted as a little girl claiming for a fancy doll (Mr. Blakely) in the same way as Mr. Brown, represented as the mother of the younger, endeavors to wash her young affections from the fancy article by displaying to her gas a smaller and more superior toy (Mr. Mackenzie), saying: "Hoot-toot! my hizzle! Be content with this! Yon's only for ornament!"

THE BEST RECORD.—The North York Forest and Stream publishes a complete list of the winning yachts on this continent during the past season. From this we gather that the *Katie Gray*, of New York, has the best record of any yacht in America for the past season. The *Katie* started in five races, and won four first prizes and one second prize. The cat boat *Brothers*, of the North River Yacht Club, New York, has the next best record, she having started in eight races and won five first and two second prizes, and being unplaced in the other race. This is something for Mr. W. H. Campbell, owner of the *Katie*, her builder Capt. Catbush, and the *Brothers*. Quite a yacht club to be proud of, and we congratulate all concerned accordingly.

OUR LOCAL RAILWAYS.—The ironing of the Grand Junction to Campbellville was expected to be completed to-day. The North Hastings line will be completed to terminus at the Moore mine within a few days. A dealer in covered ice is engaged for the transportation over the North Hastings Railway of 3,000 cords of wood to Belleville. Some little benefit has already been derived from the North Hastings Railway. Several cars of excellent car have been received and sold at hardwood per cord, delivered. For wood inferior in quality the price on the market has been from \$70 to \$60 per cord. A quantity of alders from the mill at Moore lake are also being brought to Belleville over the same road.

THE LONDON QUARTERLY REVIEW.—The American reprint of the London Quarterly Review for October is on our table. Its contents are: John Dryden; Rise of the Puritans; Anglican; Elphinstone; M. Thiers; Life and Character; The Lancashire Cotton Strike; Is the Church of England

Protestant? The Revival of Turkey. Republished by the Leonard Scott Publishing Company, 41 Barclay Street, New York, at \$4 per annum. For sale by the booksellers.

LITTLE'S LIVING AGE FOR 1879.—The extra offer to new subscribers for 1879, and the reduced clubbing rates, are worthy of notice in this issue. The series of articles published in this column. The remarkable success of *The Living Age* is well attested by the fact that on the 1st of January next it begins its 40th year. It is the only English magazine that is now richer than ever before, and the ablest writers upon all topics of interest.

It merits careful attention in making a selection of reading-matter for the year. The more numerous the periodicals, indeed, the more valuable becomes a work like this, which, in convenient form and at small expense, gives the best of all. Its importance to American readers can hardly be overestimated, as no other single periodical enables one, as does this, to keep well informed in the best thought and literature of the time, and fairly abreast with the work of the most eminent living writers.

FATAL ACCIDENT.—The Napanee *Beaver* says:—"On Thursday night a fatal accident occurred in North Fredericksburgh, that startled the whole community, and robbed one of the best known citizens of his life. Mr. Paul Huxley, Jr., was returning home from Mill Point on Thursday night, about five o'clock, on horseback. When about a mile and a half from home, he rode upon a pile of lumber, and was killed. One foot was held fast in the stirrup, while the frightened animal, otherwise a very quiet horse, kicked its master to death with its iron shod heels, and then escaped, leaving him in the middle of the highway. At least this is the way the fatal casualty must have occurred, for a little girl, from the window of Widow Woodcock's house, saw the horse stumble and Mr. Huxley fall and the horse kick and rub his head against the dead man's forehead, where the cruel calks crushed through the skull, confirmed the little girl's story. Help was at once summoned, and the unfortunate man carried to Widow Woodcock's house. After being picked up he breathed faintly about ten minutes, but never spoke. He leaves a wife and one child to lament his untimely taking off."

CHILBLAINS.—An inflammatory affection of the skin, generally confined to the feet. Exposure to certain alterations of heat and cold usually give rise to these troublesome visitations, which are characterized by itching and irritation. Persons of scrofulous habits and languid circulation are most subject to them, as are children and aged persons. It is a popular fallacy, and to keep the surface of the skin in a state of unnatural warmth by hot bottles and woollen socks by night, for linings and warmers by day, is the best way to prevent chilblains, but this only serves to keep up a constant perspiration, and so weakens the tone of the system and renders the skin liable to them. A nightly foot-bath of cold or, for aged persons of tepid salt and water, with plenty of rubbing, and a course of cold and exercise during the day, will be most likely to keep chilblains from the feet; and for the hands, the same as to get them thoroughly dry after every washing, and an avoidance of all unnecessary exposure to severe cold, and the use of preventive measures. It is a good plan to have some oatmeal always at hand, and to rub them with it after the feet have been dry. This will absorb any moisture left by the towel and have a softening and cooling effect.

THE AFGHAN WAR.

The Amerer's Reply Comes Too Late.

IT IS SUBMISSIVE, BUT IS NULLIFIED BY A SECOND LETTER.

Advances on Jellalabad—An Open Road to Candahar.

FLIGHT OF THE AMERER FROM CABUL.

LAHORE, Dec. 7.—The letter which Lord Lytton announced Major Cavagnar had received from Sher Ali was the Amerer's answer to the Viceroy's ultimatum.

The reply of the Amerer to the Viceroy's ultimatum has been received by the Indian viceroy of India. The letter, dated the 5th, but having reached Dacca before the 30th of that month, it is believed to have been written after the receipt of the news of the capture of Ali Masjid.

The Amerer criticizes the professed friendship of the British Government, and alludes to its action in the past, especially its intervention with Yakub Khan, as contradictory of such intentions. The Amerer explains that his refusal to receive the mission was intended to be hostile, but that he feared the loss of his independence, and an apprehension which was confirmed by an allusion in the ultimatum to protection to the Viceroy of India.

It is reported that the Kyber Agency had been engaged in escorting the mission. The Amerer declares that no enemy exists between the British Government and the Amir of Afghanistan. He desires to resume the former friendly relations, and finally states that he will accept the visit of a small temporary mission.

A Lahore correspondent says:—"As the Amerer's letter regarding the Viceroy's ultimatum, operations will proceed with if possible, more activity in consequence of the Amerer's intention, so as to acquire as much as possible before he submits."

It is rumored that an advance on Jellalabad has been ordered, and that the Amerer has fled to Turkestan.

It is reported that the Amerer fled from Jellalabad to Kandahar for a portion of his troops.

High officials say the last letter of the Amerer is as unfriendly as his former one was friendly. Its expressions are merely conventional, and are intended to be brought to the notice of the Viceroy.

He has reached Ali Masjid on November 20th, and has since the flight of the Amerer to Cabul. The Amerer was increased at his return, and ordered him to proceed.

A Lahore correspondent says:—"The British had been ordered, and that the Amerer has fled to Turkestan."

LAHORE, Dec. 8.—A Tull dispatch says the British aid at Peshawar are now estimated at 20. The vast supplies which the Afghan authorities have been ordered to send to the British are now being sent to the British.

AMERICAN DISPATCHES.

CLEVELAND, O., Dec. 9.—In an interview published in the *Leader* Gen. Miles, the Indian fighter strongly favors the transfer of the Indian Bureau to the War Department. VINCENNES, Ind., Dec. 9.—W. C. Barber, while hunting in the mountains in the southeastern part of the state, was frozen to death last night.

CHICAGO, Dec. 9.—The cigar manufacturers passed a resolution endorsing the action of the New York market, and advising the immediate home system. It is proposed to make the action general throughout the country.

NEW ORLEANS, Dec. 9.—The Homopathic Commission investigating the fever epidemic declare it both imported and indigenous. A discriminate quarantine is recommended.

WASHINGTON, D.C., Dec. 9.—On Saturday Frisby Parson's leg caught between two heat-rolls at a rolling mill. It was drawn into it, crushed flat and roasted. Death is probable.

PARIS, Dec. 9.—The first shipment of horses from America for the use of the French army has arrived. The French military inspectors are much pleased.

NEW YORK, Dec. 9.—Washington inspectors: Buckner will introduce a bill directing the collection of \$7,000,000 worth of silver bullion monthly into standard dollars, until the market value of silver bullion at New York is at par with the coined standard of silver, after which time some standard of bullion shall be coined into standard dollars, on the same terms as now provided for coining gold.

The *Times* says that in connection with the proposed transfer of the Indian, several tribes recently held councils, with a view of ascertaining the feelings of the white people. About 90 per cent of the Indians expressed their sympathy against the transfer.

The *Herald* says, it is supposed in influential democratic quarters, that if the election trials in South Carolina show that fraud is sufficient to invalidate the election in the 2nd Black district were committed, the elections there shall be promptly declared void, when the new Congress will meet.

The Southern men in the House are disposed to move the grant of money asked by the President to carry out federal election trials. They are confident a thorough judicial inquiry will show the country there was no intimidation, but there is once more a growing and noticeable feeling among the extreme Republicans against the President.

On Saturday evening a banquet was given to John McCullough, Gen. Sherman presided. Speeches were made by Justice Miller, Secretary Sherman, Blaine, Representative Blackburn and others. During Blaine's remarks he said with the end of the war his hostility to the South ended completely so far as he was concerned, and he would encourage the development of the intelligence of the South, and cultivate among the white people of common impulse the two gentlemen extended their arms across the table and shook hands, whereupon the rest of the party rose and indulged in vociferous cheering. Some were affected to tears.

The *Sun* says the opinion is expressed that of the 28,000,000 or 30,000,000 trade dollars exported to China within five years, all but 1,000,000 or 2,000,000 have been chopped off by the marks of Chinese bankers and thus rendered uncurrent here.

NEW YORK, Dec. 9.—It is rumored that proceedings are being set on foot by the largest shareholders of the Delaware, Lackawanna & Western Railway stock to break the lease of the Morris & Essex Railway. The company operates as leasee of some twelve minor roads, every one of which is run at a considerable loss. On the Morris & Essex the loss last year was \$1,210,000.

Arrived, the Circassian from Glasgow.

Business Notices.

Notice under the Bank Act, a notice to the public.

The offices of the Belleville and North Hastings Railway Company have been removed to the Grand Junction Hotel, Belleville, and are now open there for the transaction of business.

Daily Intelligence.

BELLEVILLE, WEDNESDAY, DEC. 11.

City and Vicinity.

POLICE.—The cells were occupied last night by two prisoners.

MARRIAGE.—A man meeting of the craft is to be held at the Lodge Rooms this evening at 7:30.

STORM.—The storm proved too much for the clock in the City Hall, which stopped at 5:45 this morning.

ADVERTISEMENTS FOR THE ALMANAC.—Those who have contracted for Advertisements in the INTELLIGENCER FAMILY ALMANAC, are requested to send them in at once to the office.

W. C. T. A.—The regular meeting of the Women's Christian Temperance Association will be held at the residence of Mrs. E. W. Holton on Thursday, Dec. 12, at three o'clock. A large attendance of the members is requested.

ON TIME.—It is creditable to the Grand Trunk authorities that the trains were on time to-day, despite the heavy snow and drifting. Had the wind been from the north, which would have blown across the line, there would probably have been a different story to tell.

THE CELLS.—The terrible storm which proceeds from the cells has been in nowise abated since last our reference to it. We commend the matter to the attention of the Board of Health, and to the Police. The nuisance can be overcome by the use of disinfectants, the use of which should be enjoined on the policemen.

THE MADON BONDS.—In the Court of Queen's Bench, Toronto, on the 10th, Mr. Hector Cameron, Q. C., obtained a writ for a mandamus to compel the Township Council of that place to issue bonds to leave the debtors for the \$20,000 bonds voted by the people of that Township in aid of the Belleville and North Hastings Railway Company.

THEODORE O. L. No. 747.—The following is a list of the officers for this Lodge for the ensuing year:—Wm. Hicks, W. M.; Wm. White, D. M.; John Crampton, Chap.; Wm. Wray, Sec.; James Reid, Treas.; Wm. H. Houston, D. of C.; Committee—B. Ridley, J. Alexander, Wm. Brown Sr., A. McGowan, R. McGowan.

SLIGHTING.—The use of wheeled vehicles has for the present been abandoned, their place being taken by sleighs, which make their way with difficulty through the heavy drifts. Should the snow remain, the roads will be in good condition two days hence, and business will receive a great impetus. Lumbermen especially will welcome the coming of the snow, owing to lack of which their operations had been considerably retarded.

NARROW ESCAPE.—Some boys who, when the freight train which passed up Front Street yesterday afternoon, was backing down after being stuck on the grade, thought that the train was going up hill and were about to get on the track, had a very narrow escape. The Railway authorities ought to place a bell at each of the principal streets to give warning of the approach of trains, otherwise it is to be feared that a serious accident will occur.

A COMING CHANGE.—Only a few more weeks, says an exchange, and the man who is now advanced to carry home a quart of dried apples will be seen on his best clothes, may be seen lagging along an armful of bundles of assorted sizes, a large paper parcel and a rocking horse under his left arm, dolls and jumping jacks and balls and trunks hanging out of his coat-tails pocket, and clanked in his hand a nine-penny turkey with its head trailing along the pavement. And he will feel proud and look happy.

THE FORTIETH REVIEW.—The Rosetford Publishing Company have sent their admirable reprint of the Fortieth Review for November, which contains the following interesting papers: Parnell and the "Necessarium," by Matthew Arnold; The Recent Development of Socialism in Germany and the United States, by Henry Fawcett; Two Foreign Opinions on the Treaty of Berlin, by Emile de Laveleye; Fearing Forest, by Alfred R. Wallace; The Peasants of the Languedoc, by F. Barthelemy; On the Study of Climate, by Sidney Oliver; The English School of Jurisprudence, by Frederic Harrison; Civilization and Noise, by James Sullivan; The Cretaceous, by J. Chamberlain; Home and Foreign Affairs, by the Editor. Subscription price 50 cents per annum. Single numbers 50 cents. To be had of all booksellers.

AS OLD FASHIONED SNOW STORM.—For the last two years snow storms have been somewhat of a rarity, but this morning the residents of this city and vicinity were sharply reminded by the sight of great snow drifts which had been heaped up during the night and were constantly being added to by the anything but gentle zephyrs which were stirring about, that a winter had made its appearance in good earnest. Rain fell steadily during the whole of yesterday and up to 2 o'clock this morning, when the wind, which had been east, shifted suddenly to the westward and began to blow with great violence. Snow took the place of the rain which had been falling, and fell so densely that by 3 o'clock the quantity which had descended upon the city had covered the earth to the depth of from four to five inches on the level. The tremendous gusts hurried the snow

snow about furiously, and the consequence is bare roads and streets in many places and great drifts in others. Still, had as the roads are present, the coming of the snow is very welcome.

BUTTER AND CHEESE SHIPMENT.—Messrs. Allen have made arrangements with the Colonial Railway for the carriage of butter and cheese via Halifax to Liverpool. They will take the line of freight from Halifax to Liverpool, or about the same rate as via Portland. Butter and cheese ships will thus be saved the expense and trouble of finding the goods.

RESIGNED.—We understand that Alder, man Holden has resigned the Chairmanship of the Finance Committee and refused to act in that capacity any longer. As money cannot be drawn from the bank unless the cheques are countersigned by the Chairman of the Finance Committee, it will be necessary for the City Council to meet and appoint another Alderman to succeed Mr. Holden.

COURT REPORTING.—Under the arrangement made between the City and County Councils a short-hand reporter is now, for the first time, employed in taking down the evidence given in the County Court. By this arrangement a very considerable saving of the public funds will be effected, as the evidence being written much more quickly than heretofore, the sittings of the Court will be shortened materially. The reporter is Mr. Horton, formerly connected with the Old and later with the New, and who is now reporter for the Court of Appeal.

CHURCH OF THE HOLY TRINITY.—Mr. John S. Walter, surgeon of Thorncroft, Dorset, writes to the *London Times* that after two cases of malignant diphtheria out of some nine or ten he had been called to attend had proved fatal, the mother of a sick child, who had been "treated" for an American paper, concerning a practitioner who used sulphur to cure the disease. According to him, the use of sulphur for children and flowers of sulphur for other children and adults, known to be a dangerous assistance with glycerine; done a teaspoonful or more, according to age, three or four times a day, swallowed slowly, and application of the salt to the nostrils with a sponge. He said he did not know of any other cases, but he succeeded in saving life when the affection had almost broken the throat.

Police Court.

(Before A. Diamond, P. M.)

DRUNK AND DISORDERLY.
Richard Smith was fined \$5 and costs.
DRUNK.
John Hunt, first offence, was discharged.

Seasonable Topics.

Now the "Beautiful Snow" order of men will begin to show the dust of their intellects.

If you get into your shoe-maker's, don't get in debt to your shoe-maker. There were no tramps at the Police station last night. The snow is not so heavy as there would be exercise for their delicate muscles in snow shovelling this morning if they slept in the cells.

The snow storm was a blessing to many poor men and boys, who earned their breakfast by shovelling snow from the sidewalks.

It was hard work clearing the track of the street railway with snow ploughs this morning.

The man who declared "now is the time to get a quarrel with your sweetheart, for after New Year's you can easily make up again," ought to be condemned to the ranks of single blessedness, from which it is hoped he will never be able to free himself in this life.

It should be required of the Street Railway Company that their employees distribute the snow taken off their track by the snow-ploughs, instead of leaving it in great banks, forming an impediment to travel.

The sound of the sleigh bells was very welcome to-day, as people had begun to think that there would be no sleighing this year, at least of any account.

It is said that a fashionable boarding house furnishes the best anti-snow.

The snows of winter are foretold in the chilly weather—but it's good duck weather. The time you've got to think what "new haves" you'll turn over to the last of January is rapidly shortening.

"The American Velvet Plant" delights the horticulturists of England. Here it is known as the mullein.

Tramps are beginning to look like hikers, and that is regarded as an infallible sign of a coming hard winter.

Putting a hat pin in a chair is a very amusing practical joke. It never fails to cause a man's head to ache.

"Poor man, had the faculty of smell," he has a sound in his mouth.

"Weight for the wagon," observed the farmer as he helped his three-hundred-pound wife to a new vehicle.

"I find your recommendation very good, Bridget." "Yes, ma'am, and now I'll see you, ma'am, if you please."

The latest idea of medical invasions is a large square of cardboard, on which the whole story is told in old English letters.

AMERICAN DISPATCHES.

PORTLAND, O. Dec. 11th.—H. P. Gage, President of the Hancock Savings Bank, was found with a pistol wound in his head, probably fatal. It is believed he suicided because of the failure of the bank.

BELLEVILLE, PA. Dec. 11.—An express train which left Boston at 2 p. m., ran into a wash-out near Bartonsville, precipitating the locomotive, baggage car, and passenger car into the gulch. Fireman Ed Davis was instantly killed; Kit Price, baggage master, probably fatally injured; Frank Kemp, mail carrier, and Canada Express messenger, were instantly killed. Of the eight passengers on the train, Mr. Harriet Hamilton and Flora Davis were killed. A passenger car was thrown off the edge of the trestle. Much damage has been done by the storm in this vicinity. One high land bridge has gone near Bartonsville, and a railroad bridge over the river reported gone. Faxon's river is very high. Farnsworth & Co.'s woolen mill at Faxon's river village is in great danger, probably gone now. All the streams are rising rapidly.

CORVALLIS, N. H. Dec. 11.—On the Montreal Railroad, last evening, in consequence of a wash-out and a snow storm, a passenger train, consisting of a smoking car, baggage and mail car, combined and passenger car and a Pullman car, was wrecked. The train was passing over the engine and tender were precipitated down the embankment about 150 feet from the road; the baggage car struck in the side of the Lawrence, (express) passenger car, the passenger car was thrown off the track. The Pullman car was thrown on its side opposite from the locomotive. The baggage car was thrown on its side opposite from the locomotive. The baggage car was thrown on its side opposite from the locomotive.

HARTFORD, Conn. Dec. 11.—Ben. Logan, formerly wealthy, but reduced to poverty by litigation, and confined in jail for alleged insolvency, was hanged yesterday.

NEW YORK, Dec. 11.—The *Herald's* Fredrickburg, Va. special reports that the police are following up a suspicious sailing trip in the Rappahannock River, which it is alleged had sailed from the city on Dec. 10.

THE HERALD'S Nashville special says that the city is unable to meet its municipal indebtedness reaching \$8,000,000. There is talk of putting the city in the hands of a receiver.

THE HERALD'S Paris special says that Grant will embark on the U. S. corvette *Richmond*, probably at Mareilles, about Christmas, and proceed to Italy, Ceylon, Siam, China, Japan, South Africa, India, arriving at San Francisco in May, and thence sailing east, reaching Long Beach in June.

NEW YORK, Dec. 11.—The New York Steam Ship Refinery, which cost over \$500,000, was sold at auction for \$250,000 yesterday. A man picked up by the police last night claims to have been beaten in a notorious bawdy house, kidnaped and robbed, and after four days' detention thrown in a street.

THE HERALD'S reports that Edison's electric lights produced by the incandescence of a high alloy of platinum and iridium, which cannot be melted at 5,000 degrees Fahrenheit.

Arrived, the State of Indiana from Glasgow and California from London.

AFTERNOON DISPATCHES.

LOVINO, Dec. 11.—A Pesh dispatch says a temporary block occurred in the negotiations for an ad hoc Turkish Convention, Turkey insisting on the inventory of provisions, which the Russian evacuation shall proceed simultaneously with the surrender of places ceded to Montenegro.

BONNY, Dec. 11.—The shipyard has appeared in this neighborhood.

ROME, Dec. 11.—In the Chamber of Deputies there are now pending twelve motions against the Government.

LOVINO, Dec. 11.—A Vienna dispatch says that Napoleon, the pro-Slavist agent and Russian State Councilor, has been expelled from Austria.

NEW YORK, Dec. 11.—The Senate is considering a resolution of the House of Representatives, which is usually short, says his resolution was offered for a two-fold purpose. First, To place on record the friends and outages by which the recent elections were carried in the Southern States. Second, to find if there be any method by which the repetition of these crimes against the free ballot may be prevented.

He says that 100 representatives of the Congress were recently chosen in former slave holding States, of which Democrats elected 101 or 102 and Republicans only 1 or 2.

He adds that 30 of those representatives were assigned to the South by reason of a colored population. He warns the South that even if they could strip the negro of his constitutional rights they can never make a white man's vote in the South so powerful in aid of the administration of the Government as a white man's vote.

SEVEN, Conn. Dec. 11.—The effect of the severe storm is apparent on the railroad leading out of the city. A number of wooden trestles are reported to have been washed away. The bridge over the river bridge, near Barrington, was carried off. At Seymour the iron bridge in course of erection was swept away.

NEW YORK, Dec. 11.—The Executive Committee of the Western Union Telegraph Company today recommended quarterly dividend of 14 cents.

NORTH ANSON, Me. Dec. 11.—Water very high. Inhabitants on the river banks, driven from home. Wash-out on Pittsford and North Anson. A large number of cattle and sheep on the trestle near Bartonsville's ferry. Water falling slowly.

PORTSMOUTH, N. H. Dec. 11.—Storm very severe. Wash-out at Wells, Maine. Trains detained.

MUD OR FROST.

BOSTON, Dec. 11.—The common Council will stand 33 Democrats to 33 Republicans.

WILMINGTON, N. Y. Dec. 11.—The Susquehanna river 12 feet above low water mark and rising rapidly.

WHITEHALL, N. Y. Dec. 11.—As "Tion" drenches the large hardware store of a hotel. Co. was flooded, damaging most of the stock. Twenty-three bridges that cross Mill Brook between Minerva and Port Henry have been swept away, leaving only two standing.

PORT JERVIS, N. Y. Dec. 11.—New York alignment of the Barrett Suspension Bridge was carried away. The entire structure is probably destroyed. Loss will be very large.

WATERLOO, N. H. Dec. 11.—Two engines, express freight from Boston, with two engines, went into the river near Westport, where the track was swept away, and both were badly wrecked. No one seriously injured. Bridges also swept away at Warren and East Haverhill.

PORT JERVIS, N. Y. Dec. 11.—It is expected that all trains on the N. Y. Central and Hudson River Railroads will be running regularly by noon.

WEATHER REPORTS.
TORONTO, Dec. 11.—Probabilities for the next twenty-four hours: For the Lower Lake, from the S. W. (very) westerly to northwesterly winds, slowly to partly cloudy weather, with showers of rain, low temperature, for the S. W. (very) westerly to northwesterly winds, slowly weather, with rain and snow, followed by partially clearing. For the S. W. (very) westerly to northwesterly winds, slowly weather, with rain and snow, followed by partially clearing.

WASHINGTON, Dec. 11.—Predictions: Colder, clearing.

The census plant will take root on a stone window-sill, and be surrounded with the promise of rain. Men who make a living by writing, consequently have a sympathetic interest in the matter.

W. J. F. tells the Country Gentleman that some of our best farmers intend to sow only four or five pecks of wheat per acre, and make a grade of the wheat selecting all the grains. This they think will give as good a seedling as two bushels sown in the usual way. Using some concentrated manure where the young plants can get it will cause them to "stool" and cover the whole ground.

Special Notice.
A CARD.
To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send, free of charge, my new book, "THE GREAT MISTAKE," which is a full and complete description of a self-administered remedy to the cure of all these troubles. Write to Dr. J. C. Smith, Station D, 210 West 10th St., New York City.

Business Notices.

Notice under this head that is the most important. After an hour or two it is lost.

SPRING CLASS MEETING.—We are requested to give notice that Mr. J. W. Youngman will be pleased to meet all his old pupils (as well as all others who may wish to be initiated) at the City Hall, on Saturday (to-morrow) at 2 p.m.

ANNUAL MEETING.—The annual assembly of the Bible Church of this city will be held on Sunday, Dec. 15th, at 11 a.m. and 7 p.m., by Rev. Mr. Clark, at the City Hall, on Saturday (to-morrow) at 2 p.m. The meeting will be held on Monday evening, Dec. 16th, at 8 o'clock. Tickets \$2. An interesting evening will be expected.

Daily Intelligencer.

BELLEVILLE, FRIDAY, DEC. 13.

City and Vicinity.

OPERA HOUSE.—The Fox Sisters' comedy company will appear to-night in the comedy of "Mischief," and other attractive performances.

ARMED.—The members of No. 3 Fire Company held an assembly in their rooms last night. A large party were present, and everything passed off very satisfactorily.

THE CELLS.—Two prisoners and eleven tramps slept in the cells last night. The aroma which they left behind was not that of the spice laden breath of Ceylon, and the place needs to be disinfected.

BEWARE.—We notice by our exchanges that thieves are operating in different parts of the country taking harness and other articles from farmers' stables. Keep your premises well secured for fear they might pay you a visit.

LADIES CARRYING CANNES.—The Ottawa correspondent says:—The Ottawa ladies in carrying a small cane have been contagious. Yesterday and to-day a number of young ladies in Ottawa followed the example.

POSTAL REVOLUTION.—It should be generally known that letters containing coins of any kind are not allowed to go out of the Dominion. Letters containing coins addressed to foreign parts, are invariably sent to the Dead Letter Office and returned to the writer. The knowledge of this fact may save trouble.

O. Y. B.—Orange Young Britons Lodge, No. 168, met at their lodge room, Amherstburg, on Dec. 4th, when the following officers were elected:—Wm. O. Duggan, W. M.; John W. Gibson, J. M.; J. M. Benson, Sec.; Geo. Wood, Treas.; Thomas Cunningham, Chap.; William Howe, D. C. Committee—Jesse Tice, James Porter, Samuel Nix, Geo. Tice, Royce Cummings, William Anderson, O. M. P. (Grand Treasurer of P. A.), was elected Guardian of the lodge.

GOOD TIMES COMING.—We are pleased to learn, says the New York Register, that there is a good prospect of considerable dealing being done this season in the getting out of cedar and basswood logs. Messrs. Rathbun & Co., lumber merchants, have given orders to several parties in the vicinity to furnish that firm with large quantities of the timbers named, to be delivered at certain places on the River Trent. Fair prices are offered, viz, 75 cents a standard, and should the season prove favorable, it is likely parties who have undertaken to supply logs will reap a very little harvest. At any rate it will give employment to a large number during the winter, and be the means of circulating some money, which, no body will dispute is a very much needed.

A GAS WELL AT CORBURN.—The Corbourn Star reports the discovery of what is supposed to be a gas well in that town. The Street Inspector had been deepening a well in order to obtain a better supply of water, when at the depth of 54 feet indications of gas oil were observed from the strong smell of the liquid which came up from the hole that had been sunk, and in which the drill worked. On removing the drill the gas rushed up the tube with such force as to throw water up through it to the surface of the ground above. A gas pipe and burner were soon attached, through which the gas flowed in sufficient quantity to throw a flame about four feet in height. Should the supply of gas prove permanent and increase with further boring, it will be of great benefit to Corbourn.

AN ANTIQUARIAN OFFER.—The Independent, of New York, publishes the latest, largest, and best religious newspaper in the world, offers in another column to give away, absolutely, a Worcester's Unabridged Quarto Pictorial Dictionary, which retails everywhere for \$10, and is, of course, a household necessity. The Independent is now publishing the Rev. Joseph Cook's famous Boston Monday Lectures, which are creating so much discussion everywhere. It will also soon begin the publication of a series of articles on "Socialism and Communism," one of the most important questions of the day, by Dr. F. P. Theobald, D. D., LL.D. See advertisement of The Independent in this paper.

GRAND JEROME RAILWAY.—The Campbellford Herald says:—"Never before, perhaps, in the history of Campbellford, has an event elicited so much curiosity as the arrival of the railway train to this village, on Saturday last. The employees during the three latter days of last week, made an almost marvellous jump over the road, and on Saturday a novel sound, the rumbling of the locomotive, was heard, and one which conveyed to the idea of advanced civilization, showed plainly that the laying of the track to this place had been accomplished. During the afternoon, as many as four or five hundred persons came to witness the new arrival, and at night a very large number availed themselves of the moonlight walk to the 'station' to see the departure of the train, which had come up with a load of human freight, including many ladies, from

WASHINGTON, Dec. 13.—In the House, yesterday, the resumed consideration of the Geneva award bill came up. Willis, of New York, took the floor of a majority report of the Judiciary Committee, and he was glad that the odious doctrine was not now urged by anybody, that the money belonged to the United States. The money was held by the insurance companies should have been sent, not to a direct loss by the depositions of non-combatants, but to have been obtained in absolute right to a portion of the award, which it was not within the power of the Congress to divert them. A majority bill simply referred all claims to a judicial tribunal. Lapham, of New York, supported a majority report. About \$10,000,000 remained of the award. Some held that it should be returned to England, but now that the United States had paid it and England had grasped five millions and a half for catching a few fish, the number of such poor had lessened. The idea of converting it into the treasury had been abandoned and it remained a fact to be given to the class of people who suffered by the sale of contraband, and if that class could be found, ship owners who had suffered losses by payment of war premiums, should be reimbursed before any other class of people.

KILLED ON THE RAILWAY.—We are informed that Mr. Wellington Cantin, eldest son of Mr. Philip Cantin, farmer at the Dead and Dumb Institute, was killed on a railway near London last night. Particulars have not yet been received, but the bereaved father was to start to-day to bring the body of his son home for interment.

ELECTRIC BELLS.—Mr. P. H. Hanley has had put up in his Restaurant what is called an "Electric Bell" system of alarm, which is a great improvement on the old system of bells. It is not liable to get out of repair, and the water has no difficulty in ascertaining the number of the number indicated by the instrument. It was put up by the Electric and Hardware Manufacturing Co., of Toronto, who are extensive manufacturers of telegraph instruments, electric bells, &c. We understand that this Company intend to apply to the City Council to allow them to put up a Fire Alarm. In Toronto the fire alarm has had the effect of materially reducing the rate of insurance.

ALBION A FIRE.—Two young men who board in the Albion Hotel retired to bed at nearly half past twelve, and were awakened by a powerful smell of smoke, which produced a suffocating feeling. He arose and found that the smoke proceeded from his overcoat and other clothing, which he had thrown on the fire. He was retreating, a pitcher full of water extinguished the fire, when the young man found that as the penalty of lighting a lighted piece of cigar in the pocket of his overcoat, that coat, the coat himself, and the lounge were all badly burned. He will not repeat the cigar trick for some time to come.

MECHANICS' INSTITUTE LECTURE.—Last night the Rev. Dr. Jacques delivered the first lecture of the Mechanics' Institute course, in the City Hall, before a small audience. The President, Thos. Rickin, Esq., in the chair. The Rev. gentleman treated his subject with his wonted eloquence and ability, keeping up the close attention of his hearers for more than an hour. At once interesting and instructive, his address was well calculated to interest all who had the privilege of hearing it, and to incite them to cultivate that which the lecturer showed to be the true spring of success in any walk in life, namely, education in and for their own benefit.

THE REV. DR. JACQUES.—The Rev. Dr. Jacques was warmly received by the Rev. W. M. Maclean, seconded by Dr. Hope, in a neat speech and cordially agreed by the meeting, after which a collection was taken up and the proceedings closed. At it is the intention of the Directors to continue this course of lectures at intervals during the winter months, it is to be hoped that their efforts will meet with the sympathy and support of our citizens. Every cent obtained by this and other means is devoted solely to the perfecting of the equipment of the Institute, and as we have reason to believe that, since its commencement, it has been a means of good to many, it is most desirable that every endeavor to render it more and more useful should be heartily seconded. We may return to this subject in a future issue.

A Bridge over the Ferry.—To the Editor of the Daily Intelligencer:—Dear Sir, I am glad to notice that the press of the City has spoken on the matter of the advisability of some measure being adopted by the City Council, whereby the trade of Prince Edward County may not be diverted to some other market and thereby lost to the city. This matter is well worthy of the earnest consideration of every taxpayer, and of immediate action being taken in the premises by the City authorities. It would, however, appear that an ice-creaking ferry-boat would not at all meet the requirements of the case, although it might be used for a few days after the ice comes, and might answer very well in crossing rivers with strong currents, it is still a body of water, like our Bay, where the ice comes so rapidly in cold weather, the broken ice would prove an insurmountable barrier to the boats, and by showing it under the solid ice, or by heaving it out on the surface. In either case, the expense would be found too great for practical purposes, besides in the former case there might be some danger of forming a dam worse than that caused by anchorage.

There is one sure, safe and practical way of securing the ferry-boat, and that is by building a bridge over the ice, which the people of Prince Edward would not be subjected to the inconvenience and delay incident in crossing by a ferry-boat, that is by building a bridge. The estimated cost of a bridge from Zwick's island to the opposite shore, is \$130,000. This estimate was made at a time when the price of lumber was very high, it was safely stated that, a bridge costing \$120,000 at this time, could be built now for \$90,000.

Two years ago I introduced this matter in the Council, and a resolution was passed that immediate steps be taken in getting the necessary charter from the Dominion Government. Everything was well until the 20th of May, when the Council met again, and the matter was apparently dropped, although a clerk of the Council wrote to the City Clerk several times relative to the matter. I am glad to see that the City Council made a move in the matter at last meeting. In conversation with a very prominent gentleman from Prince Edward yesterday, he stated that \$50,000 could be raised in that County for the contemplated bridge.

I am glad to see that the City Council made a move in the matter at last meeting. In conversation with a very prominent gentleman from Prince Edward yesterday, he stated that \$50,000 could be raised in that County for the contemplated bridge.

Yours, &c., DAVID HEDDERLEY, Belleville, Dec. 13, 1878.

AMERICAN DISPATCHES.

WASHINGTON, Dec. 13.—In the House, yesterday, the resumed consideration of the Geneva award bill came up. Willis, of New York, took the floor of a majority report of the Judiciary Committee, and he was glad that the odious doctrine was not now urged by anybody, that the money belonged to the United States. The money was held by the insurance companies should have been sent, not to a direct loss by the depositions of non-combatants, but to have been obtained in absolute right to a portion of the award, which it was not within the power of the Congress to divert them. A majority bill simply referred all claims to a judicial tribunal. Lapham, of New York, supported a majority report. About \$10,000,000 remained of the award. Some held that it should be returned to England, but now that the United States had paid it and England had grasped five millions and a half for catching a few fish, the number of such poor had lessened. The idea of converting it into the treasury had been abandoned and it remained a fact to be given to the class of people who suffered by the sale of contraband, and if that class could be found, ship owners who had suffered losses by payment of war premiums, should be reimbursed before any other class of people.

KILLED ON THE RAILWAY.—We are informed that Mr. Wellington Cantin, eldest son of Mr. Philip Cantin, farmer at the Dead and Dumb Institute, was killed on a railway near London last night. Particulars have not yet been received, but the bereaved father was to start to-day to bring the body of his son home for interment.

ELECTRIC BELLS.—Mr. P. H. Hanley has had put up in his Restaurant what is called an "Electric Bell" system of alarm, which is a great improvement on the old system of bells. It is not liable to get out of repair, and the water has no difficulty in ascertaining the number of the number indicated by the instrument. It was put up by the Electric and Hardware Manufacturing Co., of Toronto, who are extensive manufacturers of telegraph instruments, electric bells, &c. We understand that this Company intend to apply to the City Council to allow them to put up a Fire Alarm. In Toronto the fire alarm has had the effect of materially reducing the rate of insurance.

ALBION A FIRE.—Two young men who board in the Albion Hotel retired to bed at nearly half past twelve, and were awakened by a powerful smell of smoke, which produced a suffocating feeling. He arose and found that the smoke proceeded from his overcoat and other clothing, which he had thrown on the fire. He was retreating, a pitcher full of water extinguished the fire, when the young man found that as the penalty of lighting a lighted piece of cigar in the pocket of his overcoat, that coat, the coat himself, and the lounge were all badly burned. He will not repeat the cigar trick for some time to come.

THE CHILD'S WAY TO HEAVEN.
(Published by Request.)
"Oh! I am weary of earth," said the child, As it passed with a fearful cry, On the mountain side that leads to his land; For whatever I love will die."
And the child came out of its little house, It came and it looked abroad, And it said, "I am going this very hour, I am going to heaven and God."

There was a shining light where the sun had set, And it saw a golden glow, And it seemed as if earth and heaven met, All around the distant bow.

And the child looked out on the far, far west; Where the evening sun had gone to its rest, And it said, "I am going this very hour, I am going to heaven and God."

There was one bright spark on the cloud's dark face, As it had low down, And it said, "I will go to that very place, For it must be the gate of heaven."

So away it went to follow the sun, Beyond the clouds and the rain, For always the faster it tried to run, They seemed to go farther away.

Then the evening shades fell heavily, And the child was alone, And it said, "I am going this very hour, I am going to heaven and God."

And the child called out when it saw them there, As it was not alone, And it said, "I am going this very hour, I am going to heaven and God."

WONDERFUL DISCOVERY. EMPRESS RELIEF. THE FRIEND OF MANKIND.

AN INTERNAL AND EXTERNAL REMEDY. BALM FOR EVERY WOUND.

It cures Rheumatism and Neuralgia, and all painful affections. "Who says it is not the only remedy for Rheumatism in the 'American Continent' prepared by thousands." As soon as applied it gives instant relief.

It is rapidly absorbed, penetrates to the very source, cures the circulation, neutralizes the Rheumatic Poison, circulating through the blood, and expels it from the system through the natural outlets.

IT CURES. Toothache, Earache, Headache, Neuralgia, Rheumatism, Sprains, Swellings, Inflammation, Burns, Ulcers or Sores, who is suffering Pain in back, Pain in chest, Pain in shoulder, Coughs, Colds, Frost-bites, Chills, Headaches, Dyspepsia, Summer complaints, &c., &c.

It will cure the most agonizing Pain in internal or external, in one instant of time. Prick your pain and give it a trial; the investment is small and relief certain.

The great secret of the success with all classes is owing to the fact that it is safe and harmless, pleasant to take, gives instant relief, and can be applied to a wider range of disease in every day life, with greater success, than any preparation, which research, skill, and "Medical Science" have produced.

As a proof of its great power over disease, any person, no matter who it may be, Rich or Poor, Old or Young, who is suffering from any of the above painful complaints, will call at the Office in Toronto, any day of the week, will get practical proof, "Free of Charge" of its medicinal power over pain in one application.

Testimonials from all parts of the Dominion are constantly coming in, giving expression to the most grateful gratitude for astonishing cures which it has performed, and we would be pleased to receive testimonials from all others who use it successfully.

Physicians of the highest responsibility recommend it as a most efficient "domestic remedy" for the relief of Pain in cases of sudden emergency.

Carry it to your home, and it will prove a blessing to your family and afflicted friends.

Druggists are selling enormous quantities of it, and we would be pleased to challenge the World to produce its equal.

Price, 25 cents per Bottle. The Trade supplied with the Wholesale Drug and Patent Medicine House of Montreal, Toronto, Hamilton and London, sold by all extensive Druggists.

SEND 25c. to ROWELL & CO. New York for Pamphlet of 100 pages, containing lists of 3000 newspapers, and estimate showing cost of advertising.

IMPORTANT TO HORTICULTURISTS, ROSES, ROSES, ROSES.—Messrs. J. W. B. and George S. Robertson, Agents for Messrs. Stone and Wellington, Nurseries of Toronto, are at present among us, taking orders for the new and fine varieties of Roses, Climatic, flowering shrubs and ornamental trees. Our citizens should not let this opportunity pass without procuring at least the Queen's collection of Roses, to mark the coming of the daughter of our gracious Queen among us. Upwards of 400 collections have been sold in the City of Ottawa already. Parties having reasonable collections that usually look like should get the new perpetual blooming Climatic, with flowers measuring six inches in diameter, and which continue in bloom from June till first frost, and can be seen in the White, Blue, &c. People can rely on getting a first class article and not the common cheap trash picked up from the surplus stock of untried nurserymen. The roses they will deliver are all grown on their own roots and strong two year old plants. This method of propagation is far ahead of the old method of grafting and budding will maintain stocks. The manner in which this firm transacts their business cannot fail to give satisfaction, as their Agents give a duplicate order to every purchaser and guarantee the stock to be delivered in a thrifty and healthy condition. Nothing could be better than this and most recommend itself to all. We heartily recommend them to the public. It

A WARNING TO CARROLLS DRIVERS.—The Police Office recently along the street in Lindsay, was thrown to the ground and received a broken arm and other injuries in consequence of his rig being backed into by a Motor Car. Failure to obtain compensation by other means, Mr. Jellat brought an action at the County Court and succeeded in recovering damages to the amount of \$82 and costs.

RUNAWAY.—Shortly after noon to-day a horse attached to a cutter which was without occupants, starting and galloping towards the lower bridge and struck the foot path on the bridge where the cutter was badly wrecked against the iron-work. Two ladies had a narrow escape. About the same time another horse and cutter which was also without occupants when it passed Bridge Street, passed up Front Street. The horse kept the middle of the road and was not captured as far as could be seen.

AMERICAN DISPATCHES.

PETERSBURG, Va., Dec. 17.—Dr. E. C. Powell, an ex-Alexandria, was fatally stabbed by R. C. Shell, a lawyer, at Dinwiddie Court House yesterday, after a heated political discussion.

KNOXVILLE, Tenn., Dec. 17.—Near Thornhill, on December 11th, J. N. Epperson quarrelled with his wife. John Epperson, a married man, interfered, when his father stabbed him. John wrestled the man away and dealt his father a fatal blow; subsequently Thomas, another son, returned, and declaring he would take his father's part began firing at John; his mother interfered when he shot her dead. He also wounded his sister, probably fatally, and shot another brother slightly. He is a fugitive. John Epperson surrendered himself and was acquitted on the ground of self-defence.

New York, Dec. 17.—Henry E. Hoy, of Galt & Hoy, prominent publishers, committed suicide by shooting himself, yesterday. Financial difficulties are the cause.

Judge Hilton notified several prominent Hebrew Benevolent Societies that Mrs. Stewart refuses to present them checks for \$200 to \$500 each. It is questioned whether the donations will be accepted. The Jewish Orphan Asylum, of which Jesse Seigman is President, declines its check.

The freight and passenger troubles between the Union and Central Pacific roads and the Pacific Mail Steamship Company have been settled, a new contract having been executed yesterday.

Last evening at Brooklyn Mrs. Anderson of England, started to walk 2,700 quarter miles in 2,700 quarter hours.

O. D. Mudge, Clerk in the Custom House has been dismissed for entering the service of private parties against the Government.

James Murray, a professional thief, while robbing a money drawer in a saloon last night, was fatally shot by Michael Daly, bar-keeper.

Three churches at Belleville, N. J., were attacked by burglars on Saturday night. Much wild damage was done.

New York, Dec. 17.—The Sun's Washington special says the bill to restore the stolen bonds to the Manhattan Bank was urged so strenuously because a respectable lawyer in New York had proposed to return the stolen bonds to the Bank on the payment of a round ransom, and threatened in case it was refused to cause a run on the bank. This matter is serious, as the sixty days' notice to depositors expired in a fortnight.

AFTERNOON DISPATCHES.

LONDON, Dec. 17.—Large sales of cotton at Liverpool are attributed to extensive operations for Russia, made with the view of forestalling the new import duty, and to a rise reported in New York. The latter is attributed partly to a false report sent from this side that the Oltina strike had ended. The card-room of one mill resumed at a per cent reduction, but in the spinning department hands could not be got. On Monday five more limited companies mill resumed, ostensibly at a reduction of 5 per cent, but with the compulsory arrangement that the five per cent taken off should be invested in means of transport, and paid to the employees if they carry their point with the other mill owners.

Meetings of representatives are to be held to-day to vote whether the members of the Operative Association may resume at all in the offering the retail Warehouse and Manufacture for Ladies' and Children's Underclothing and general outfitting.

NEW YORK, Dec. 17.—Mrs. Mary Jane Sweet, wife of a car conductor, hung herself yesterday. She first offered the rope to her little son and urged him to hang himself, he ran from the house and notified several persons who then came to the house and found her hanging on the ground that they did not wish to appear to commit.

Norwich, Conn., Dec. 17.—Judge Kellogg ordered in the case of the Rhode company, the franchise of Wales, Prince Christian, and Prince Leopold have left for Darmstadt to attend the funeral of the Grand Duchess of Hesse.

NEW YORK, Dec. 17.—The Ports and Great Britain are negotiating concerning the British jurisdiction over the foreigners in Cyprus. Great Britain recognizes the Sultan's authority over Cyprus, but the British capitulation concerning the consular jurisdiction is still applicable there.

New York, Dec. 17.—Mrs. Mary Jane Sweet, wife of a car conductor, hung herself yesterday. port what liquor is sold under providing it contains enough alcohol to constitute intoxicating drink. He first commenced \$100. Washington, Dec. 17.—Congressman Glover says the figures of the bureau of printing and engraving are wholly uncorrected. He says printing indicates a needless expenditure within the last year to the extent of over \$100,000.

LAUREL, Dec. 17.—Arrived the SS. state of Pennsylvania from New York.

New York, Dec. 17.—The fire this morning in the large corner manufactory of Morris, Cohen & Co., West 20th Street, caused a loss of \$35,000.

Everything quiet along the Third Avenue horse railroad to-day. The strike continues, but the cars are running nearly an regular time, with police protection. The strikers are resolved to hold out.

New York, Dec. 17.—Gold has been sold at par, the first time it has touched that figure since its suspension of specie payments in 1862.

PHILADELPHIA, Pa., Dec. 17.—No hopes are now entertained of respite for either John Kehoe or Martin Bergan, Molly Maguire, to be executed to-morrow. Fugitive lawbreakers have taken place this morning. Kehoe's wife, accompanied by her six small children, was first at the scene, and remained a long time. The partying was very affecting.

Belleville, Friday, Dec. 20.

The Policy of Delay.

When, last year, the Ontario Legislature was not convened until after the holidays, the criticism of the Conservative press on the unusual delay, in which a few Reform newspapers joined, brought forth the statement on behalf of the Government that the session had been delayed beyond the usual time because of the fact that the revision of the Statutes could not be completed at a date early enough to admit of the House being summoned at the usual time for the opening of business. At the same time, there was a sort of promise given by some of the Government organs that a similar postponement should not occur again, and that if it did, they should feel inclined to condemn it. But, although Mr. Mowat and his colleagues have no such excuse to offer at this time, they have pursued the same course in failing to call the Legislature together until the holiday season has passed.

As we have before remarked when treating on this subject, it is a matter open to great objection that the Federal and Local Parliaments should be in session at the same time, as although our local interests are of paramount importance, the transactions of the former, as the larger body, overshadow those of the latter to such an extent that the proceedings of the Legislature are lost sight of to a very large extent by the great masses of the electorate. This very undesirable state of affairs is largely contributed to by the fact that the newspapers are obliged to devote most of their space to reporting the Dominion Parliament, brief mention of the Legislature being thereby necessitated, although they are in reality of more importance than those of the Dominion Parliament.

This is largely to the advantage of the Ontario Government, who can thus dispose of the business of the Province in a manner to suit themselves and with comparatively little criticism outside of the House, and as a general election is near at hand, they will without doubt avail themselves of the opportunity, thus created by themselves, to the fullest extent. The dodge is, however, so transparent that if the electors but bear it in mind they will largely ignore the proceedings of the Legislature at the coming session and be prepared to render judgment at the polls when the time arrives for them to do so.

Grand Junction Railway.

The Campbellford Herald says:—"Last Friday, one of the Grand Trunk officials made a special trip over the Grand Junction Railway, to this village, for the purpose, we believe, of considering the safety of the road for traffic, and for the settlement of the question whether or not a train is to be run this winter between the two points, Belleville and Campbellford. During his stay in this village, he made enquiries respecting the amount of freight likely to flow from this quarter, and ascertained those with whom he had conversation that a definite reply would be forthcoming in a few days. If a favorable report is given the Company, a daily train will commence running immediately, and continue all winter. We hear it intimated, also, that a deputation has left Newark to make proposals to the Grand Junction Railway Company to divert the line from Hastings and proceed by the way of Newark. It is said a very handsome bonus is named if the Company accept the proposition of the new route."

There is a British Fleet.—There has been an outbreak of typhoid fever among the British fleet at Arica in the Sea of Marmora, and it is believed the fleet will be moved to Vozira Bay, Smyrna.

The Scolding Campaign.—The Mail publishes an interview with Mr. E. B. Webster, Courtney's principal leader in the late race. He says:—"Courtney, disgusted with the hard things that have been said of him, has declared that he will row no more, and has given away his boat." Mr. Webster thinks, however, that this feeling will pass away under the soothing influence of time, and that next season Courtney may take part in several regattas, and probably enter on a match race with his old enemy. There is no such one of Courtney and Hanlon coming together again, at least not till late in the season. Mr. Webster says there was a rumor of Courtney's coming to Hamilton to receive a commission of £1000 dollars for rowing at Montreal, but no person is named, and the money was not paid. He states that the rumor was a mere fabrication, and that Mr. G. W. Lee, of Newark, now master of the boat, and Mr. P. D. D. (of Portland) the latter he regards as a wonderful oar. He will challenge Hanlon to a light off, but will be destroyed by the water.

The North Hastings Railway.

The Madoc Review says:—"On Saturday last a first-class car and engine arrived here from Belleville, having on board Messrs. Haddock, Kite, and several other gentlemen, on a trip to the terminus of the line. It contained a number of gentlemen, who accompanied them from here, among whom were Messrs. Wood, O'Flynn, Gross and others. Arriving at the Seymour Mine, a short stop was made, where the party were kindly received by Mr. Pacey, who was hard at work getting his railway built. The party then proceeded to the Moore Mine, where a number of men were at work, ballasting, etc. In conversation with the men on the job, it was ascertained that a Grand trunk official who was on board the train, had the intention was to put on a regular train this week, or as soon as arrangements could possibly be made. It will have here in the morning and come back in the evening, giving several hours for business in Belleville. It is also expected that the fare will be much lower than that now paid. We expect to see the train to enter the Confederation hour for the arrival and departure of trains." At the meeting of the Township Council on Monday, the notice from the Village Council with reference to a suit of a suit between the Township and Railway Company, was ordered to be filed.

News Condensed.

Officially Suffered.—The Ottawa Free Press says:—"We understand that the Minister of Inland Revenue has suspended about twenty Inspectors of Weights and Measures in different parts of the country—among the rest the two appointed by the late Government in Montreal."

THE BRITISH IN CALIFORNIA.—The British residents on the Pacific Coast of the United States on the 19th presented through a deputation, a testimonial to Lord Beaconsfield. The latter, in returning thanks, spoke hopefully of the results of the Treaty of Berlin, and asserted that the signatory powers were determined to see its provisions carried into effect.

THE GEORGIAN BAY BRANCH.—A telegram from Ottawa on the 19th says:—"Mr. Charles, contractor for the Georgian Bay Branch of the Pacific Railway, is at present in town. He has fifty-three miles of road to build, and two years to complete the work. In October, and have built a wharf, blacksmith's shop, boarding house, storehouse, &c., and have a steamship plying between the mouth of French River and Canby's Bay. They are now building a two masts, and getting out the requisite line, &c., required for active operations in the spring. He feels confident that the road will be completed in the required time."

DENIAL.—The Mail denies the assertion of the *Globe* of Ottawa correspondent that it is intended to impeach Lieut. Governor Macdonald or Lieut. Governor Clouston. The case of the former, Mr. J. A. Macdonnell, late of Glenora, now of the law firm of Joy, Tupper & Macdonnell, publishes a letter whereby he denies the charge.

Reform paper, distinctly declaring that he is in his native county seeking evidence of corrupt acts against his Honor Mr. Macdonnell's says of an impeachment taken place in the House of Commons, that he will not interfere in the election. If the *Globe* desires it, he says, he will publish the petition to Parliament of the ratepayers of the township of Leitch, praying for an investigation into the Hon. Mr. Macdonnell's conduct, and the City of Ottawa, Junction Railway Co.

Agricultural and Arts Association.

The Council of the Agricultural and Arts Association met on the evening of the 18th, at the Agricultural Hall, Toronto, the President, Mr. Thomas Stock, in the chair. Several were also present, Hon. Wilmet, Prof. J. T. Bell, Prof. Buckland, W. Saunders and Rev. Mr. Burnett.

Mr. Drury gave notice of motion to amend article 60 of the constitution giving the Committee of the Council power to reverse the decision of the judges.

Mr. Wilmet pointed out that it was necessary that there should be a higher trial in the judges, who were not supposed to take instance of the violations of the rules. For instance, the judges would be put on a regular trial this week, or as soon as arrangements could possibly be made. It will have here in the morning and come back in the evening, giving several hours for business in Belleville. It is also expected that the fare will be much lower than that now paid. We expect to see the train to enter the Confederation hour for the arrival and departure of trains."

AMERICAN DISPATCHES.

New York, Dec. 20.—The *Sun's* Savannah, Ga., special reports that Raymond and Ellis O'Leary, brother and sister, were hanged in Liberty County yesterday for murdering Sam Goodwin, while the latter was attempting to collect a debt from his father on Oct. 12th.

The *Herald's* Philadelphia special says that Grant's friends have secured Conkling's withdrawal from the Presidential contest against a confidential agent to Washington last week who returned with the message that Blaine would not stand in Grant's way. This is regarded as ensuring Grant's re-nomination.

The *Times'* Chicago special says that the result of the Railroad Managers' Convention yesterday was not by any means as satisfactory as that of the day previous. The difficulties regarding business going east from Milwaukee and the steamship troubles which disturbed foreign freight rates still remain unsettled.

OHAMA, Dec. 20.—Latter reports show that the burning of the two men in Chester County was the final work of the cattle men, who are determined to keep homebodies out of that County. The two victims had simply taken homebodies.

RICHMOND, Va., Dec. 20.—An incident was found yesterday against Alex. Vaughan for trying to stuff the ballot box at Petersburg. Vaughan was State Forestry Commissioner, and is charged with trying to stuff the ballot box with ballots from his slaves.

New York, Dec. 20.—Lloyd Phoenix, a well known phreatic, was arrested yesterday charged with threatening the life of Mrs. Laura W. Thorpe at her apartments. Mr. Thorpe is suing for divorce from his wife on the ground of alleged immorality.

Yonkers, N. Y., Dec. 20.—A quarrel between the Thorpes was occasioned by his demanding the return of certain letters he had written to her.

Two of the forty leaders of social democracy recently banished from Berlin have arrived at this city. A dozen more are coming.

Meyer & Geiger, exporters of hardware, have failed. Liabilities \$50,000.

The Knickerbocker spice mill, Chambers Street, was damaged to the extent of \$10,000 by fire last night.

Edward F. Smith's family, 135 Clinton Place, Brooklyn, have been disturbed lately by the ringing of the door bell and mysterious noises. The police were sent on watch, but the noises ceased. There is no explanation of the phenomena.

Geo. Haer, of Troy, has sold the trotter "Valcan" to W. H. Harbeck, of this city, for \$8,000.

BELLEVILLE, FRIDAY, DEC. 20.

City and Vicinity.

THE ROADS.—A little more work is required on the principal country roads and on the streets of the city to make sleighing easier.

INSURANCE.—The amount of insurance on Mr. Penwell's grain mill at Canifon was \$3,000, namely \$2,000 in the Rockaway, \$1,000 in the North British and Merchants.

SEPARATE SCHOOLS.—Mr. Thomas O'Hagan, of Trenton, has been appointed Principal of the Belleville Separate School; and Mr. P. Madison succeeds Mr. O'Hagan as head of the Trenton Separate School.

RAILWAY INSPECTION.—Mr. Mulvihill, Government Railway Inspector, accompanied by Mr. Bickford, left here at 2 o'clock this afternoon for the purpose of inspecting the Belleville and North Hastings Railway on behalf of the Ontario Government.

TO-NIGHT.—Remember the Christmas Tree and Tobacco in the Metropolitan Hall this evening. Proceeds in aid of the building fund of St. Thomas Church. The Oddfellows' Band will kindly lend their aid on the occasion. This favorite and popular band will not doubt be a great attraction.

OPERA HOUSE.—Prof. Macallister, the wizard, gave his first entertainment in the Opera House last night. He is a very clever performer, his manner on the stage is excellent, and the costumes he bestowed were of value and fairly distributed. He will appear again to-night, at a matinee to-morrow, and again to-morrow night.

BLIND TON.—This musical prodigy, whose performances have at different times been so highly appreciated in this city, will appear at the Metropolitan Hall at a matinee at 2 p. m. to-morrow and again in the evening in his unique entertainments. Seats can be secured at Reynolds' book store, Bridge Street. Prices are named in the advertisement. He will no doubt be greeted by a full house.

RAILWAY FACILITIES.—The Grand Trunk Railway Company have lately been paying more attention to the convenience of local freight and passenger traffic. An additional mixed train has been put on between Belleville and Kingston, leaving Belleville at 5:45 a. m., and arriving in Kingston at 10:30, and leaving Kingston at 11:05 a. m. and reaching Belleville at 2:30 p. m.

SUCCESSFUL.—The *Northwest Register* says:—"We are glad to be able to state that the mission of Messrs. Sargent and Roxburgh to Belleville, regarding the railway scheme now being considered by the people of this country, was remarkably successful. A conference of the Directors of the Grand Junction Company and some of the leading gentlemen of Peterborough is to be held in that town at an early day to further discuss this important matter."

THE MEN THAT ARE WANTED.—In selecting men for the Council the electors should give their support to such men as have given evidence of their economy, and of their desire to protect the interests of the people. A conference of the Directors of the Grand Junction Company and some of the leading gentlemen of Peterborough is to be held in that town at an early day to further discuss this important matter."

A conference of the Directors of the Grand Junction Company and some of the leading gentlemen of Peterborough is to be held in that town at an early day to further discuss this important matter."

THE SIEGE OF THE "GRAND CENTRAL."—Mr. D. R. Leavens, owner of the Central Hotel premises, states that the siege has been caused by the course pursued by Mr. Wemp, who was the tenant of the house. Wemp, he states, recently sold out to Mr. Sterling of Lindsay, who went home for a few days to complete his arrangements, leaving the place in care of the former lessee who had returned. Instead of waiting till Mr. Sterling came back, Wemp began on Monday to remove the furniture, which coming to his knowledge, Mr. Leavens seized the furniture for rent. Wemp thereupon retained possession of the upper stories, and the siege has been occasioned by the efforts of Sterling's retainers to get possession of the part in question of the house. The matter has occasioned a good deal of noise and it is high time that the disturbance which it occasioned was put an end to.

CIVIC RETIREMENT.—At a meeting of the Ottawa City Council on Tuesday night a lively discussion took place on the report of the metropolitan Committee which recommended a reduction of nearly \$15,000 in the cost of city Government. The reductions in officials' salaries range from 10 to 25 per cent. Several officials have been dismissed, among them the Health Officer. Two market committees and the City Engineers' clerk.

REBELS OF SMOKING.—The Campbellford *Advertiser* says:—"By the careless handling of matches on Saturday evening last, Mr. James White, a farmer of Seymour East, had his barn and the whole of its contents destroyed by fire. The thrasher was at the house, setting the machine on fire to commence threshing. About dusk Mr. White, who was standing on the straw stack, took out his pipe, and tried to light it. The straw caught fire, and the fire spread rapidly across his pants. The top of the match fell off, and he tried a second one, but no sooner had he done this, than the thrasher observed the place on fire. With great exertion the thrashing machine and a democrat were hauled out and saved. Two barns and their contents, composed of wheat, peas and oats were destroyed. The stack of straw outside the barn was also consumed. We did not learn the extent of the loss. There was an insurance on the place, in the Prince Edward Mutual Insurance Company. Mr. White had his clothes and whisks singed in his attempt to escape from the fire."

County Court and General Sessions of the Peace.

CARLETON & PLEIN GROVE CEMENT FACTORY.—Action brought by cheese-maker to recover for his services. Defence: Plaintiff agreed to make first class cheese out of milk furnished and tested. Plaintiff claimed the fault was with the defendants in furnishing inferior milk, causing distress and loss in supplying the factory with proper ingredients to detect it, and machinery to manufacture. Settled between parties. Dickson for plaintiff; Wallbridge, C. C. for defendant.

DONNELLY & MARTIN & CHESBY.—Action on a promissory note made by J. Martin & Co. Crosby claims being a partner. Case laid over to next court, on account of the absence of a material witness. Headed by J. C. C. and Dickson for plaintiff; Wallbridge, C. C. for defendant.

BLACK & FROST.—Action against debt as maker and endorser on a promissory note. Defence: note not stamped. Verdict for plaintiff for \$139.69. Dougall & Falkner for plaintiff; Hon. L. Wallbridge for defendant.

DAVIDSON & CO. BELLEVILLE & NORTH HASTINGS RAILWAY.—Verdict for plaintiff for \$29.81.

MILLER & CO. & GARRATT & CO.—Action against debt as bailiff, and his securities. Plaintiff recovered judgment against H. J. Garrison in Division Court. Bailiff relying on Lloyd's promises neglected to make the money, and plaintiff bringing their action against bailiff for plaintiff. Verdict for plaintiff for \$28.51. McMahon and Northrup for plaintiff; Dickson and Peterson for defendant.

PETERMAN & CO. & LEAGHER & CO.—Action on a promissory note to recover the amount of a promissory note and balance due, on account of Defence: Note not stamped and never indorsed. Verdict for plaintiff. Flint & Jellet for plaintiff; McMahon and Northrup for defendant.

DRUNK AND DISORDERLY.
William Walling was discharged, and John Hurty was remanded.

LARCENY.
Amanda Bailey was remanded until to-morrow.

Seasonable Topics.

The boys are very much in favor of long stockings just now, as "they hold so much more when you hang 'em Christmas."

The sleigh-draggers are singing the praises of the sleigh. It is the coalman, the shoemaker, and the clothier.

A gentleman was one day relating to a Quaker a tale of deep distress, and concluded pathetically by saying, "I could not but feel for him." "Very friend," replied the Quaker, "thou dost right in that thou didst feel for thy neighbor; but didst thou feel in the right place—didst thou feel in thy pocket?"

"DEB CANDIDATE."

Just at this period, when municipal politics happen to be looming up, the following aphorism is timely as well as meritorious:—

"Who stands the streets and corners round, Undimmed and bowed, and never frowns? Undimmed and bowed, and never frowns?"

Who hold your hand van you would start, And hold you love you love his heart?"

NEWFOUNDLAND AND CONFEDERATION.—One of the results of the resumption of good government in the Dominion is beginning to make itself manifest. Newfoundland, which, all through the reign of Mackenzie, held aloof from us, now knocks at the door of the Dominion, and seeks to be "confederated." Sir John, the Premier of Newfoundland, has set his heart upon confederation, and already a tacit arrangement to that effect has been entered upon by himself and Sir John A. Macdonald. The popularity of Mr. Shea and his government is beyond doubt but that is not the whole of the matter. It is more than probable that the great scheme of confederation, originated by Sir John, will be carried out in its entirety during the present administration.

WHAT A PIN DID.—Some years ago a button found on the sleeve of a murderer led to the detection of a murderer, and a pin has been of a similar service lately in Paris. A landowner, having received a handsome legacy, was foolish enough to mention it to a house agent in the same house where she had placed the money. A few days later the other man came to him, and said that he had just come into some money, and invited the landowner to breakfast. The latter came, and the entertainment passed off charmingly, but, strange to say, she got dreadfully sleepy after it, and only really woke up when her hostess had made her an extra strong cup of coffee. Upon returning to her room she discovered that she had been to bed, and the police came and searched her bureau, when they turned out of some line a pin which she immediately recognized as one that she had seen in her hostess' finger on the day of this affair. A search in the latter's room revealed the thief, who had dragged the landowner at breakfast, slipped out of the room with his keys, robbed her and put his keys back in her pocket.

The Afghan War.

The Russian Mission at Kabul.

Chambers of the Hill Tribes.

LONDON, Dec. 19.—A correspondent depicts that Russia has yet recalled her Afghan mission, and that the Russian mission at Kabul is a failure. A Pahawar dispatch states that the expedition against the Zakkur Khel started on Thursday. The tribe mustered 700 warriors. It is expected that if cornered they will fight until exterminated.

AFTERNOON DISPATCHES.

LONDON, Dec. 20.—McKean, Teby and Gould, merchants, Bradford, have failed. Liabilities \$36,000, but will pay in full. German papers announce that the Franco coalition on foreign tobacco as would amount for monopoly, by 80 votes against 3. It has also decided in favor of a duty according to the weight of tobacco and not according to its value. The decision gives entire satisfaction to the National Liberal party, though the Commission was composed of 64 delegates of the Government with three ex-parte.

A Berlin correspondent says that Bismarck's defeat over this measure has created deep surprise. The rejection of the scheme by the Government Committee does not amount to Parliamentary defeat, but Bismarck is accused to have his own way. It is believed that he will not rest content with this initial overthrow of the project. Immediately on the decision becoming known he sent for Horbner, Minister of Finance, to attend him at Friedrichshagen. The Chancellor's behavior previously unsatisfactory, has not been improved by this worry. On the earnest protestations of his family he has abandoned the idea of visiting the Emperor.

PARIS, Dec. 20.—Only four persons, the surgeon, first chief engineer, and one seaman, escaped from the *Pyramide* disaster, which occurred on Wednesday night, during a gale. The *Pyramide* was on her way from Marseilles to Constantinople and was proceeding up the Dardanelles when she ran into the British steamer *Rinaldo* anchored off Larkia, bound for the Hellespont. The *Rinaldo* was a French ship, and the *Pyramide* was an Italian ship.

THE AFGHAN WAR.

Our afternoon despatches contain official

is friendly to the British, an early con-

clusion of the short but brilliant campaign may

be anticipated.

THE NEW LOAN.

The falsification of the Globe concerning the

loan recently reported by the Hon. Mr.

Tillyer was thus neatly exposed by the Mel-

bourne reference to the new Canadian loan

in the city articles of the Times and Stand-

ard, dispirits all the nonsense talked in re-

spect to the loan having been

owing to a pressure on the money market on

December 6th, only part of the loan was im-

mediately taken, and it was determined to

keep open the tender till Monday, when the

market having become easier, the balance was

loan. The Times of December

7th says:—"The new Canadian loan was

not very well tendered for yesterday, only

£1,619,000 out of the £3,000,000 having been

allotted. A general opinion was expressed

that the issue price was 4 per cent. too high

but that night no unwarmed hand had been

favorable in other respects. As it was an

important of the Egyptian loan fell to-day

and the treasury bills tendered for last week

had also to be paid for. Money was therefore

inconveniently scarce, and the consequence is

that about £1,600,000 of the loan remains to

be bought at the issue price. This represents

nearly the whole of the new money which the

Canadian Government expects to get by the

loan, the rest being wanted for the redemption

of existing six per cents. Should it not be

readily tendered for we presume the Canadian

bills under advance to the Government will

hold over the bonds till a more favorable

opportunity." It will be observed that the

Canadian bills would hold over the bonds, whereas

the London correspondent, in his cable

despatch, says: "The Times suggests that

the Canadian bills might, etc., though as we

will see the Times suggested nothing.

The correspondent also distinctly gives the

fact that it was thought the issue price was 4

per cent. too high, though that, of course,

would have an important bearing on the

tenders. Flattering by cable as we import a

subject in an article over the Globe should be

shamed of."

of oil found oozing out of clay bank in Ren-

Lands Johnson, has decided that the oil is

petroleum, but considers it unlikely that it

will be found in sufficient quantities to

warrant boring. He thinks as the oil is

different to that found in Western Canada,

it probably exists only in pockets, and

that, if the locality in which it is found is

marshy, there is probably not overlying

the rock for twenty or thirty feet, and

the oil may come from that. The oil is

much lighter, Prof. Cook says, than most

surface specimens that he has seen.

M. LITTELLER AND THE DOMINION GOVERN-

present Hon. Mr. Chapin's recent visit

to Ottawa to obtain the dismissal of Mr. Lit-

telier, and the alleged refusal of the Govern-

ment to grant his request. The London gas-

do with that subject. While in Ot-

and it was in effect that the Govern-

ment had never considered the matter. Correspondence

had passed between the Dominion Govern-

EMPIRE RELIEF.
THE FRIEND OF MANKIND.
AN INTERNAL AND EXTERNAL REMEDY.
BALM FOR EVERY WOUND.It cures Rheumatism and Neuralgia, and
fills all pains instantly. It is the only
known remedy for Rheumatism
in the "American Continent proved
by thousands." As soon as applied it gives
instant relief to the most suffering.
It is rapidly absorbed, penetrates to the
very bone, enters the circulation, neutralizing
all "Rheumatic Poisons," cleanses the
blood, and expels it from the system
through the natural outlets.IT CURES
Toothache, Earache, Headache, Neuralgia,
Rheumatism, Sprains, Swellings, Inflammation,
Burns, Cuts, Bruises, Pains in Side,
Pain in Back, Pain in Chest, Pain in Shoulder,
Coughs, Croup, Whooping Cough, Pleurisy,
Dysentery, Summer Complaints
&c., &c.It will cure the most agonizing Pain from
internal or external, in one minute. It
relieves your pain, and still give it a trial:
the investment is small and relief certain.The great secret of its success with all
classes is owing to the fact it is safe and
harmless, pleasant to take, gives instant
relief, and can be applied to a wider range
of cases in every day life, with greater
success, than any preparation which re-
quires search, skill, and "Medical Science" has
yet produced.As a proof of its great power over dis-
ease, any person, no matter who it may be,
Old or Poor, Old or Young, who is suffer-
ing from any of the above painful com-
plaints, will call at the Office in practical
proof of its power.Free of Charge of its great practical
power over pain in one application.

"ROXY."

BY EDWARD EGGLESTON.

CHAPTER XVIII.

EVENING.

Mrs. Hanks offered to make a wedding
for her son. She was quite willing to let
create her own social importance by this
alliance of Roxy's. But the bride would
have her son's wedding. She did not
want a late wedding at all. To marry
the hero she worshipped and then to start
him in hand with the wildest and
arrogant country they could find, then to
live and labor for the reason of the souls
of the people, entirely satisfied her ambi-
tions.She did not like to attend a wedding from
her aunt, for Roxy's humility was purely a
religious humility, her pride was quick; it
was not to be troubled her by the pa-
triotic was intolerable, most of all to be
sustained by Mrs. Hanks. And had Roxy
seen, living, Adams would have refused;
his native Creekdom was intensified by
his sympathy for his sister-in-law. But
Roxy accepted from her aunt the loan of
Jennima, whose hands rendered an energetic
assistant, but whose tongue could not be
quite silent. Instead of denouncing Mark
in particular, she gave way to philippics
against the general. For when once a
lodge in some vast wilderness, with Mark's
love to comfort her and a semi-military
attitude to glorify her, were rudely disturbed
by Jennima's incessant expostulation of the faith-
fulness and self-sacrifice of the hero, she
also called it. "They can't do more than
depend on that rotten log across a creek,
and that rotten log, lived on the most
best try to cross it and the crack it
come fly in your face. I wouldn't
marry the whole lot twelve apostrophes
just look at Simon Peter and Judas Iscariot,
for instance. I tell you what it is, Roxy,
the heart of man is deceitful, and some
men's hearts is desperate."Twonnet helped also in the wedding prepa-
ration, and she was rather more com-
petent to help in the preparation of the
wedding in general. For when once a
wedding is determined on, one ever hopes
for the best. The person who her blisse
in her heart, she would appreciate the necessity
to hasten the wedding, lest something
should happen to interfere with his plan.
In particular, did he appreciate the necessity
to hasten the wedding, lest something
should happen to interfere with his plan.
In particular, did he appreciate the necessity
to hasten the wedding, lest something
should happen to interfere with his plan.As Colonel Bonaparte considered Mark's
marriage with Roxy as a great success in
defeating the missionary project, he wished
to hasten the wedding, lest something
should happen to interfere with his plan.
In particular, did he appreciate the necessity
to hasten the wedding, lest something
should happen to interfere with his plan.CROSSE & BLACKWELL'S

PLASTERS.BENSON'S CAPSINE
POROUS PLASTER
IS THE BEST KIND.This remarkable article contains all the val-
uable qualities of the best compound
plaster, and in addition an entirely new com-
bination of active vegetable ingredients from which
it derives its wonderful pain-relieving, strength-
giving, and curative properties. It relieves pain
and cures most of the most distressing diseases
which are not even relieved. The manufacturers of
Benson's Capsine Porous Plaster have been
the highest and only award of merit given for
their wonderful plaster, relieving, strength-
giving, and curative properties. It relieves pain

Dec. 20, 1878.

—A Chicago distillery has recently shipped
a cargo of alcohol to South Africa.
—Six persons have been killed on the New
York Elevated Railroad during the year.

—The T. R. R. are laying a double track
from Toronto to Carleton.
—Fifty-five carloads of English goods left
Halifax on the 24th inst. for Montreal.

—Another snow-storm has blanketed Scotch
railways worse than ever. It is thawing in
London.

—The 24th inst. the mills owned by
Messrs. Argenteau, Qare, were burned.
Loss \$5,000.

—An order has been received by a Quebec
gentleman for a selection of Canadian trees for
planting in England.

—All the Southern States are beginning to
raise less cotton and more grain. North Car-
olina raised 2,000,000 bushels more grain this
year than last.

—Despatches from Brazil indicate that
small-pox is causing great mortality. Famines
are also causing a terrible degree of misery and
horror.

—Two gold watches have been stolen by a
burglar from the residence of Mr. Peter Gra-
ham, at R. P. for East Lambton, residing at
Warwick.

—The reported drowning of forty-eight
children at Chapelle Meeche by the breaking of
the ice upon which they were skating, has
caused, invented by a provincial newspaper.

—The Governor-General has donated \$100
for distribution among the poor of the city of
Ottawa. The \$100 contributed for the Ottawa
poor by his Excellency was divided among the
different churches in Ottawa.

—A short time ago publicity was given to
the fact that William V. Taylor, of Whitehall,
N. Y., was to fall heir to \$100,000 if he mar-
ried within a year. Mr. Taylor has already
received over 200 letters from willing women
in various parts of the country.

—Nothing further has been heard of J. B.
Jones, scrap iron dealer of Montreal, who
disappeared last Saturday week. He has only
been married a fortnight and the greatest
sympathy is felt for his young wife, who is
only nineteen years old.

dances with me the live long night. Give me
presents and take as sweet a rest as you
can. Then he married old Tom Allen's
girl and then he took to the party, and
nothing. I'll pay him back one of these
years."

Seeing that further remonstrance was no
use, Whittaker went down the walk to the
house. Colonel Bonney met him.
"Why, where have you been?"
"I looked for you to say grace," said the old
man.

"Colonel Bonney, there's an infuriated
young man standing behind the bushes
down at the other end of the garden. He
is mad about something and I'm afraid she
means some violence to Roy."

"Oh, yes, I guess I can tell you who she
is. She's a maniac after Mark. I'll go and
see."

And while Whittaker went in to supper
with melancholy suspicions of Mark, the
colonel walked swiftly round the outside of
the garden and came up behind Nancy.

"Well, what's all this about?"
"You old brute, you," said Nancy.
"Why didn't you give me an answer? I'll
pay you all back yet, so I don't!"

"Don't talk so loud. The sheriff might
hear you. He's in the house."
"Call him out here if you want to, you
blasted fool," said the girl, now fully reas-
ured and not feeling any danger that looked her
in the face.

"The colonel saw that he must take an-
other tack.
"Oh, no! I won't call him. Only be
quiet, and come in and get some supper.
I want to ask you some more questions
about the things we talked about the other
day."

"No, you don't. You don't ask me any
more questions. You want to wind me up and
tangle me up, but I don't know my own
name. No more of your 'yes' and 'no's'!"

"You've got a seal of my son's?"
"Yes, I have."
"Did anybody see him give you that
seal?"

"No, they didn't."
"You are sure?"
"Yes."
"Did he give it to you?"
"In course he did. How else did I get
it?"

"You could steal it, couldn't you?"
"You—you—yours—say I'm a thief?"
"Did you say that you stole it?"
"No, I didn't. You know I didn't
steal it!"

"You said nobody saw him give it to
you, and I didn't say you stole it. But
you just as good as say you got it by getting
it out of his pocket."

"You lie!"
"He was on his horse when you got it
from him, wasn't he?"
"None of your axis, I tell you."

"There it is again. You know you stole
it, and you wouldn't be a gentleman. But
you lie. He gave it to me when he was
sitting on his horse in front of our
house."

"And your father didn't see him?"
"No, he didn't."
"Nor your mother?"
"No."
"Nor nobody?"
"No."

"You got it from him when he was on
his horse?"
"Yes."
"Did it come off his chain?"
"He unhooked it."

"You unhooked it, you said the other
day. Now tell me the truth."
"Well, he let me." The girl began to
quail under his steady fire of questions.

"You say you got it from him. What's
that but stealing?"
"He gave it to me."

"You unhooked it, as of his fire of ques-
tions."
"Go away with your axis!"
And the girl started to move off.

"Hold on, I'm not done yet."
"Yes, yes, air, too. I won't have no
more of your foul axis. I'm going."
"Stop! I say. You're on my ground,
and I'll call the sheriff, if you don't stop."

"Call him if you want to, an' go to
thunder with you both!" The girl was
sitting on the ground, the colonel afraid of
nothing in the world so much as the question
of the line, and the irritation and mortification
were so much from the confusion into which
he would lead her.

The terror which these questions inspir-
ed to the reaction from her burst of
passion, seemed to give her a certain amount
of fear, that drove her away into the darkness,
where she muttered defiance as she slowly
retreated into the darkness.

"They'll be sorry they ever crossed my
path," were the last ominous words the
colonel heard from her, as he lost sight of

City and Vicinity.

THE CELLS.—Only one tramp took lodgings in the free hotel last night. No prisoners.

DECLINER.—Mr. David R. Leavens wishes to state that he is not a candidate for the office of first Deputy Reeve of Thurston, and that he was nominated on Monday.

SKATING CARNIVAL.—The first carnival and fancy dress entertainment of the season is to take place in the Lorne Rink on Monday evening next, 6th January. See business notice.

THE CLOCK.—There must be something radically wrong with the striking apparatus of the city clock, which is continually getting out of order. It ought to be overhauled and put in proper condition without delay.

FOG.—About as heavy a fog as was ever outside of London (England) rested over the city for about an hour this morning. During its continuance it was difficult to see objects at more than twenty yards.

CHERRY.—It is highly creditable to a city that during the whole holiday season, the police have not found it necessary to make even one arrest, although the season is, beyond any other, a time of general dissipation.

THE CANDIDATES.—There are now 26 men in the field for the office of Mayor of the City Council. Of these former Mayor Furness, 4; Samson Ward 6; Ketcheson Ward 4; Baldwin Ward 5; Blocker Ward 4; Coleman Ward 5; and Murray Ward 4.

FURTHER RETIREMENTS.—Amongst the nominees for the position of Alderman who retired, in addition to those previously named, were Mr. S. B. Barnard, who was nominated in his absence and without his consent, in Murray Ward.

OPEN MEETING.—The Workmen's Temperance Association will tonight hold a musical and literary entertainment in their hall, commencing at 8 o'clock. Immediately after the close of this meeting, a watch meeting will be organized, to which all who desire to "turn over a new leaf" are invited to remain. There will be no charge for admission.

L. O. L. No. 1291.—The Officers for the present year are as follows:—C. R. Bonistell, W. M.; Dennis Carr, D. M.; C. H. Bonistell, Chap.; W. H. Lott, Secy.; Austin Hogie, Treasurer; H. Lott, D. of C.—Committee, John W. Young, Jos. Suttle, Wellington Cronk, Oliver N. Jones, Wellington Cronk.

SABATH SCHOOL SOCIAL.—The St. George's Church Sabbath School held their annual Social and Christmas Tree festival last night in Northcott's school house, adjoining the station. There was a large attendance of both scholars and parents. Rev. Dr. Clarke opened the meeting with prayer. Mr. Docter occupied the chair. Mr. Butcher, Superintendent, delivered the address on the occasion. Christmas Tree gifts to the children. Afterwards a well selected programme was offered and carried out, and a very enjoyable time was spent by all present. After singing from the Chairman and Rev. Dr. Clarke, the programme ended by addressing "God Save the Queen."

CHRISTMAS TREE.—The scholars of the Holloway St. Methodist Church had a Christmas festival yesterday evening. An immense Tree laden with "all manner of fruits" toys, and books, entirely filled the space usually occupied by the Pulpit and the Communion table. It was one of the most beautiful trees we have seen. The first part of the evening was spent in singing and listening to addresses by the Superintendent of the School, Mr. James Ross, the pastor of the church, the Rev. J. H. Locke, and by Mr. W. F. Jones and Mr. Wm. Johnson of the Bridge St. Sunday School, then followed distribution of presents. It was a fitting close to the joyous, happy, Christmas time.

THURSDAY MUNICIPAL ELECTION.—We observe with regret that opposition is being offered to the return of Mr. John White, M. P., as Reeve of Tyndin, his opponent being Mr. L. A. Appleby, License Inspector for East Hastings. Mr. White has done splendid service for his township, in the County Council and ought to be re-elected by a large majority. The opposition to him is a combination of political and personal motives, in which the ratepayers ought not to participate. The question for them to resolve in their own interest is "Who can best serve in the County Council—Mr. White or Mr. Appleby?" And who that knows the man and their respective abilities can decide other than in favor of Mr. White, who has occupied a leading position in the County Council, and whose ability and influence does and can do more for Tyndin.

than can be accomplished by any other man within her borders. We hope to see Mr. Appleby's personal and political spirit rebuked in this contest, and trust that the ratepayers of Tyndin will leave him at home to attend to the duties which the Government has appointed him to perform. We also hope to see our old friend Donald Anderson returned again as First Deputy Reeve. It was Mr. White's desire that he and Mr. Appleby should give way and allow Mr. Anderson to take the position of Reeve, but as that wish could not be carried out we hope that the people will not be swayed by issues foreign to the contest, in which case Mr. White's election is sure.

CITY COUNCIL.

MONDAY, DEC. 30.
The Council met at 8 o'clock, pursuant to adjournment.
Mr. W. H. Worsley, the Mayor, Messrs. Hainby, Price, Sherwood, Jellies, Holden, Robertson, Foster, Farley, Wickett, Gies, McInch, W. J. Diamond, Lingham, Proctor, St. Charles and Patterson.
Ald. Patterson gave notice of a By-law to repeal By-law No. 369, granting further aid to the Grand Junction Railway Company.
The By-law for the opening of Adams, William and Catherine Streets was moved for a second reading, but after a long discussion it was laid over until the next meeting.
On motion of Ald. Palmer, the Chief Engineer's report was referred to the Committee on Fire to report at the next meeting.
Council adjourned until next Tuesday evening.

Township Nominations.

Teachers' Examinations in North Hastings.

The *Madro Review* says:—"The Second City Examination commenced in the Model School House on Monday, the 11th inst., and closed on Friday evening. There were but two candidates. On Thursday the Students-in-training at the Model School were examined by Mr. Tilly, one of the Central Committee. The examination was quite searching in its character, and the result will prove, we have no doubt, beneficial to all concerned. The regular professional examination which is held at the close of every session of the Model School, was held on Friday and Saturday. The students-in-training were examined in school law, hygiene, reading and elocution, the principles and practice of teaching, and mental arithmetic, by the County Board of Examiners. In addition each was required, during the week to conduct one or more classes before the Public School Inspector. At the close of the examination all of the students were granted Third Class Certificates. A number of the best of all in training displayed by several, their Certificates are for less than three years. The following are the names of all who obtained certificates, viz:—

The U. S. Signal Service.

Gradually, the wild and ungovernable forces of nature are, through science, made of use to man. Following in the wake of ingenious inventions for the use of steam and electricity, comes the organization of the U. S. Signal Service. It is not wonderful that a system could be originated and perfected whereby a distant locality could predict the weather of a distant locality. And yet experience proves our "storm signals" to be reliable. Equally great are the advances made in the science of medicine. Step by step, uncertainties and doubts have yielded to scientific certainty. The discoveries of Harvey and Jenner have been succeeded by the Golden Medical Discovery of Dr. J. C. Pierce. No longer need people despair because some physician has pronounced the lungs uncurable. Hundreds of testimonials are on file in the office of Dr. Pierce from those who had abandoned all hope, and had been given up to die by physicians and friends. Impetuous consumption, bronchitis, and scrophulous tumors, speedily, surely, and permanently, yield to the healing influence of the Discovery. If the bowels be constipated, use Dr. Pierce's Pleasant Purgative Pellets. For full particulars, see Dr. Pierce's Memorial Book, given away by all druggists.
She asked the clerk if he was positive—thoroughly convinced the eggs were fresh. "Oh, yes," said the young philosopher. "I know they are," while the farmer and none of his hens were more than a year old," she bought a basketful of the spot.

The Afghan War.

LONDON, Dec. 30.—A Lahore special, dated this morning, says the reported submission of Yakub Khan is not confirmed.
The Viceroys of India telegraphs that Major Cavagnari reports there is no further news of the Afghan or of Yakub Khan. He also announces that the Khan of Kiliat desires to join the British in the advance on Kandahar.
A despatch from Bombay says the Government of Candahar has ordered a levy of the whole population to resist the British, and the people have responded heartily.

QUIET LINDSEY LINDSEY OF AMERICA comes from the East, and has been discovered for the cure and relief of pain.
Giles' Limentol of Ammonia is a sure cure for acute in the breast, and removes all swellings and hard lumps.
A SINGAPORE MESSAGER.

A SHIP CANAL.—According to *Galignani's Messenger* a company has obtained the necessary concessions from the Nicaraguan Government in constructing the long-talked-of ship canal between the Atlantic and Pacific Oceans. This to be "a canal in conjunction with the Lake of Nicaragua, effected by means of prolonging the level of the lake towards the two oceans by submerging the valleys of San Juan and the Rio Grande." The cost is estimated at about thirty-eight millions of dollars and strong intimations are given that Congress will be asked for a subsidy in aid of its construction.

WEATHER REPORTS.

TORONTO, Dec. 31.—Probabilities for the next twenty-four hours: For the Lower Lake region fresh to brisk westerly to westerly winds, cloudy weather, light snow in some localities, no decided change in temperature. For the St. Lawrence, moderate to fresh winds, partly cloudy weather.

WASHINGTON, Dec. 31.—Fidulations:—Stationary or higher temperature followed by clouding in southern portions rain or snow.
